

HIGHLY CONFIDENTIAL  
Released to Guidepost Solutions, Sunny Lee, 2/28/2022

This is a fluid, working document produced by [REDACTED] which is NOT to be published.

The information is largely pulled from news articles compiled from 2007 until 2022. It is incomplete. It has not been proofed. It has not been adequately researched. It is not Southern Baptist specific.

This table was created as a research tool to discover the scope of sexual abuse of children within the Southern Baptist Convention which was considered by the Bylaws Workgroup 2/2007 – 6/2008. In June 2008, the Executive Committee presented its report “Responding to the Evil of Sexual Abuse.” After June 2008, only alleged/convicted names of abusers and titles of articles were cataloged. Following the *Houston Chronicles* release of its database in February 2019, it was determined that many of the articles on the table were dead. I merged the tables and updated where possible. I have not researched listed Individuals outside the stated parameters.
